

Xpressite

Measuring Up!

Websites that measure up!

Xpressite is a powerful content management system delivering superior websites at an affordable price.

Xpressite Advantage

- **Proven.** For more than five years, Xpressite has delivered unparalleled product performance in a user-friendly interface. Today, with even more features and additional modules, Xpressite has developed into the most robust, efficient and reliable content manager available.
- **Comprehensive.** Our strategic planners combine their business and technical expertise to bring you an effective e-business strategy to further your relationship with clients, improve customer service, increase sales and reduce costs—the definition of a successful website.
- **Professional.** An essential element to the success of your website is in the design. Xpressite's design team works with you to develop the site layout and graphics that convey your company image in a way that is unique to your organization.
- **High Performance.** Xpressite is a database driven system providing the highest performance available. It is built to run on any operating system and can integrate with virtually any database. Using ODBC, Xpressite can connect to backend databases, perform queries and present results to the web.
- **Exceptional Service.** Client satisfaction is our number one priority. We work with you from the planning phase to implementation and training and provide continued support for all your future needs.
