

Introducing **Xpressite** for Schools

Xpressite for Schools is an extension of the highly regarded Xpressite, a content management system that delivers custom designed websites at an attractive price. You'll get the same user-friendly interface with added modules specific to schools including Admissions, Alumni Relations, Newsletters, Online Giving, Event Management, Athletics and more. Posting information is just as fast and easy. Go to a section, add a page, select its destination on the website and voila! You're done. It's that simple.

features

Admissions. Whether you're an independent or public institution the admissions process can be paper intensive. Online forms can simplify and accelerate this process freeing up more time to focus on other important activities.

Alumnae/i Relations. Here's a great way to keep in touch with alumnae/i. Online visitors can contact peers, post class notes, register for events and more. Xpressite's work queue makes it easy for administrators to manage incoming requests and registrations.

On-line Giving. Directed more at the independent establishment, online giving simplifies the process of giving and allows administrators to track the information electronically.

Newsletters. Xpressite can expedite the process of delivering important information to parents, staff or alumnae/i in a professionally formatted e-mail with relevant links back to your website.

Events Management. Every school relies on calendars to notify others of important upcoming events. Xpressite makes it effortless to post events and set expiration dates so you can set-it-and-forget-it.

Athletics. Perhaps one of the most visited areas of a school website. Now you can quickly post up to the minute game results, game schedules, sports news and directions to fields.

Teacher's Aide. By automating the daily tasks required by teacher's, Teacher's Aide is a straight forward approach to posting homework assignments, study guides, communication to parents, student progress reports, grades and more.

options

Online Community. A separate database called the Online Community allows private communication to take place between alumnae/i, parents, teachers or students and requires users to log on with a username and password to gain access. The Online Community can be customized to meet your specific needs.

School Bookstore. Whether you are selling textbooks or sweatshirts with your school's logo, using Xpressite makes it simple to add new products, fulfill orders and track inventory.

A+

...I have only begun to tap the functionality that currently exists and continues to grow daily, it seems. Before selecting Xpressite, I researched companies offering a similar product and found they charged two, three, even four times as much as what it cost to convert my site to Xpressite. I couldn't be happier with Xpressite.
